Appendix 3

*Interdisciplinary Training in Rehabilitation and Neuromuscular Plasticity (NMPT)*

**Individual Course Evaluation Form**

Please complete a separate evaluation for each required NMPT course taken. Course evaluations do not need to be completed for research or non-NMPT courses.

Trainee Name: ___________________________  Semester/Year: ______________

Course name and number: ___________________________  Instructor: ______________

Credit Hours: ______________

In reference to the NMPT training objectives listed below, please rate how well this course met those objectives on a scale of 1 to 5, where 1 is strongly disagree and 5 is strongly agree. Please mark N/A if the question is not applicable to the course.

**Objective 1: Foundation in Neuromuscular Plasticity**
- Improved my knowledge base in *neuroplasticity* ___________________________
- Improved my knowledge base in *muscle regeneration and hypertrophy* ___________________________
- Improved my knowledge base in *neuromuscular adaptations* ___________________________
- Improved my knowledge base in *interaction between neural and muscular adaptations* ___________________________

**Objective 2: Translational Research in Rehabilitation**
- Increased my appreciation of the importance and complexities of translational research ___________________________
- Provided me a broader understanding of research methodologies ___________________________
- Contribution to the advancement of rehabilitation research ___________________________
- Improved my ability to effectively communicate with scientists of diverse backgrounds ___________________________

**Objective 3: Foundation in Research Design, Data Management and Analysis**
- Strengthened my foundation in research design, data management, and/or data analysis ___________________________
- Improved my ability to develop aims and hypotheses, and develop a scientifically sound experimental protocol ___________________________
- Allowed me to better analyze and/or interpret research results ___________________________

**Objective 4: Responsible Conduct of Research**
- Improved my understanding of responsible conduct of research ___________________________

**Objective 6: Scientific Dissemination**
- Provided me direction to improve dissemination of research results through better communication of oral presentation, poster, paper and/or grant proposals ___________________________
Objective 7: Career Development

Improved my understanding about developing a research program and career plan to optimize productivity in publications and grant proposals,

This course should be required as part of the NMPT program
